**JOINT UNOPPOSED MOTION TO EXCEED CUMULATIVE PAGE LIMITS BY  
THREE PAGES**

Defendants STMicroelectronics International N.V. and STMicroelectronics Inc. (“ST”)’s understanding of Judge Albright’s page limit rules for summary judgment and *Daubert*/strike motions in the OGP is that a party’s cumulative pages for responding to summary judgment motions is limited to the cumulative pages actually used by the opposing party in the motions. Standing Order Governing Patent Cases at 9. Plaintiff The Trustees of Purdue University (“Trustees”) filed two summary judgment motions, one with eight pages and one with four pages, meaning ST is limited to 12 pages total for its responses, if ST’s understanding of the OGP is correct. One of the motions is a “failure of proof” motion that requires more pages to respond to than it takes to submit. ST thus respectfully requests three additional pages for its summary judgment responses, i.e., a total of 15 pages for the two responses.

ST conferred with Trustees and Trustees do not oppose, provide they get three extra pages for their responses to ST’s *Daubert*/strike motions. That is acceptable to ST.

ST and Trustees thus respectfully request that ST be allowed three additional cumulative pages to respond to Trustees' summary judgment motions and Trustees be allowed three additional cumulative pages to respond to ST's *Daubert*/strike motions. The parties respectfully submit that good cause exists that warrants the granting of these requests, as set forth above.

Respectfully submitted,
